Welcome Home

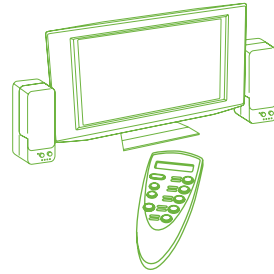

Your home is more than a place to live. It represents the things you value most. Clipsal® systems allow you to control and showcase your home elegantly, whether it's for a dinner party with friends or a cozy intimate evening.

A comfortable home can also be an energy efficient home with a Clipsal control system, by reducing lighting and heating/cooling usage. Integrate your Clipsal lighting control with your security system, giving you peace of mind as you come and go.

Make a Grand Entrance

Enjoy the simplicity of pressing a button on your remote control as you pull into your driveway. Your home will welcome you with lit pathways. **That's a smart home!**

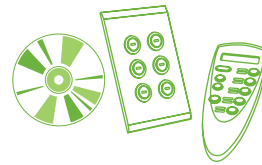

Home Theater

Dim the lights, close the blinds and start the movie with the press of a button from the same remote that is used to control the lights.

Welcome Home

Walk in the door, and by the press of a button your home greets you with the lighting levels you most desire.

Music Throughout Your Home

Enjoy your favorite music anywhere in your home. Your kids can even plug in their MP3 players and listen in their rooms.

Environmentally Friendly

Reduce your energy consumption by dimming your lights and controlling your HVAC system.

Night-Light Timer

Enjoy the convenience of having children's bedside lights automatically switch off at a preset time.

Outdoor Watering and Lighting

Turn on spa or pool pumps, garden sprinklers and outside garden lights by remote control.

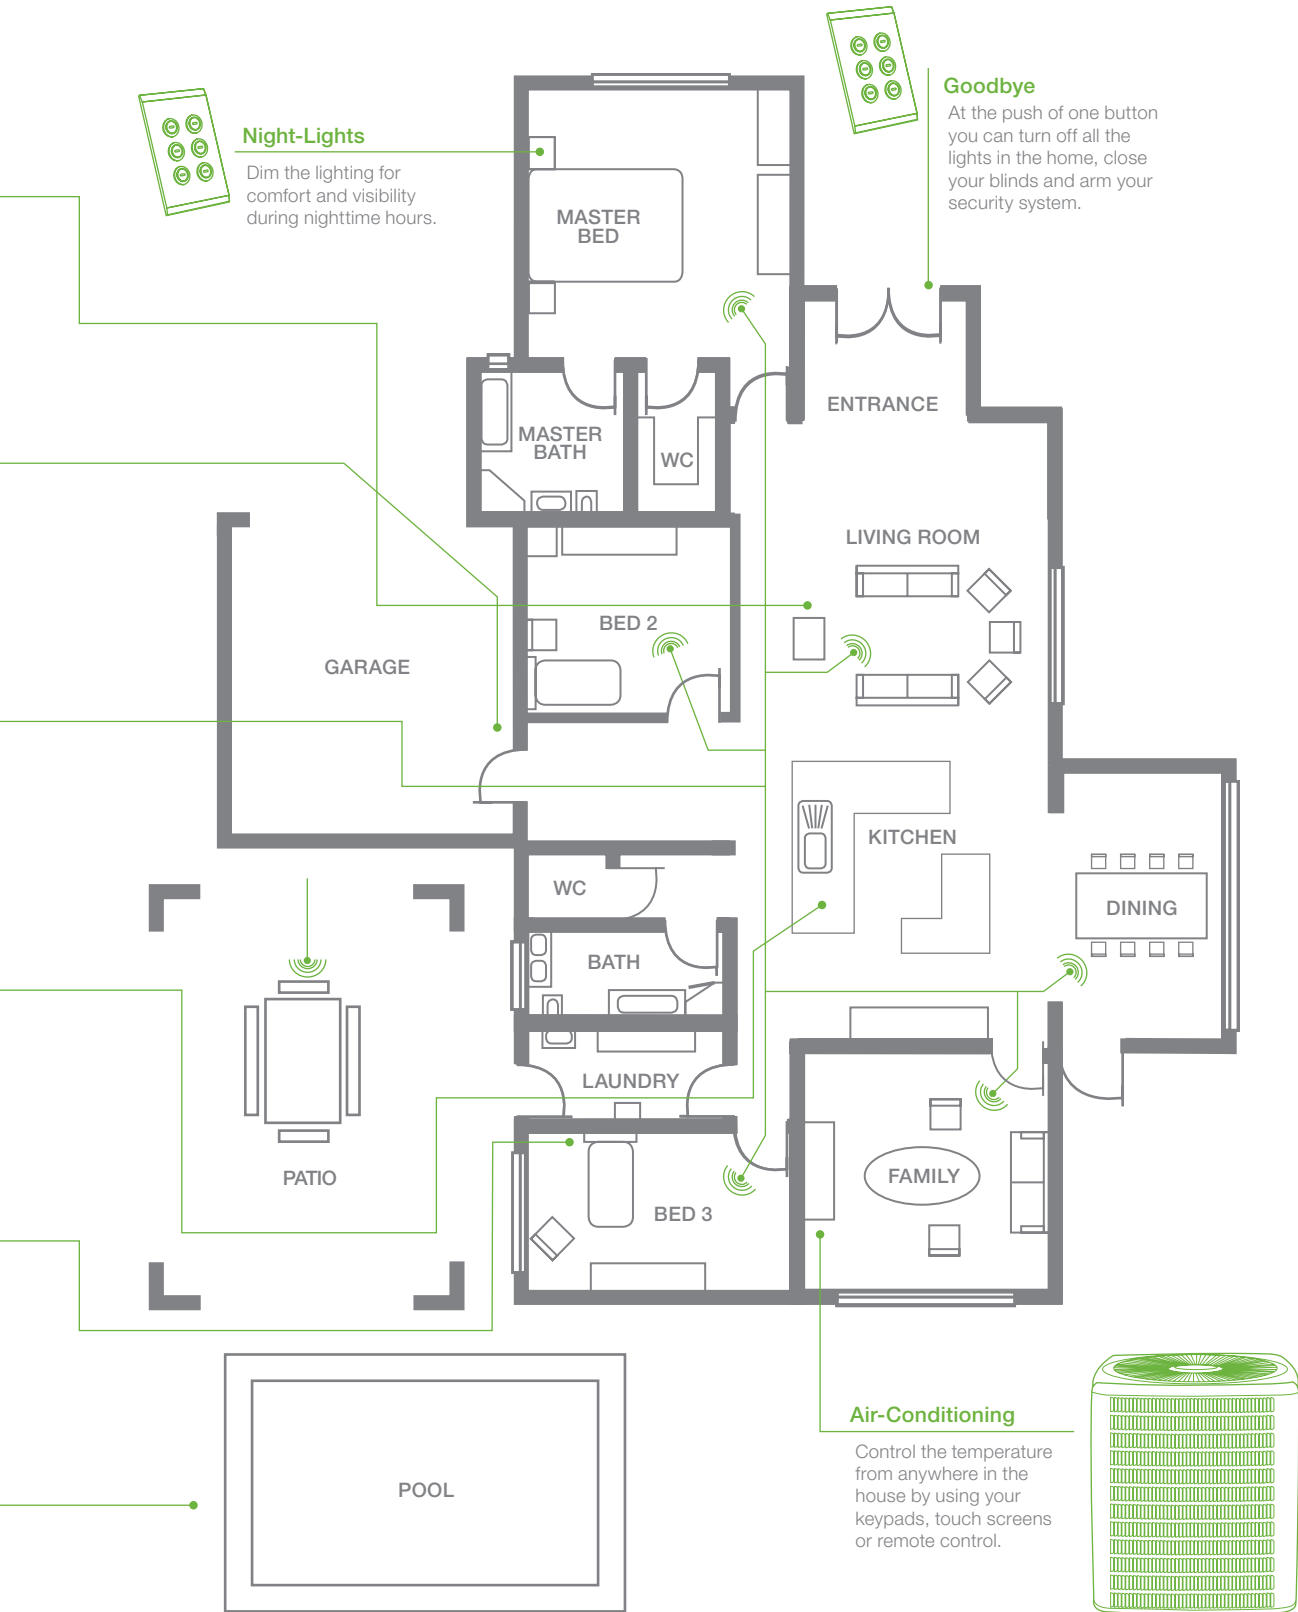

Night-Lights

Dim the lighting for comfort and visibility during nighttime hours.

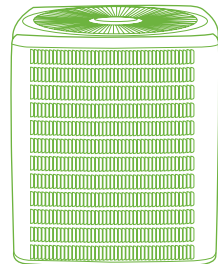

Goodbye

At the push of one button you can turn off all the lights in the home, close your blinds and arm your security system.

Air-Conditioning

Control the temperature from anywhere in the house by using your keypads, touch screens or remote control.

Improve your lifestyle with a smarter home

A Personal Touch in Every Room

Cook up Something Special

Company coming? Create the perfect dinner party atmosphere. Dim overhead and bar lighting, switch on under-cabinet lighting to cast a warm glow, and turn up your audio system for the perfect background music... all of this **accomplished with one keypad!**

Family Room

Family rooms often serve multiple purposes. Sometimes it's a place to work, but more often it's a place to relax, entertain or to be entertained. Different lighting "scenes" help enhance the experience.

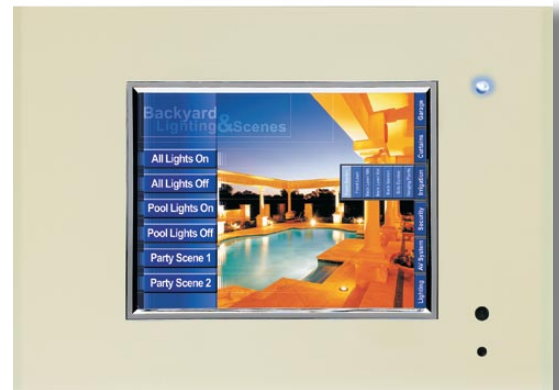

Bedroom

Whether you're winding down for a relaxing evening or waking up to a new day, **comfort is key** in the bedroom. Forget to turn the lights off downstairs? By using whole home control, adjust the lighting, temperature and mood without getting out of bed.

Outdoor

Make more use of the outdoor space. Whether it's turning on outdoor audio, using motion sensors to light pathways or a remote control to turn on a hot tub or sprinkler system, the **possibilities are endless**.

Touch Screens

It's Smart Being Green

- We all want to do our part for the environment. But did you know that you can save energy by using a "smart" home control system from Clipsal®?
- You can save hundreds of dollars a year by being energy smart. Simply dimming your lights by 10 percent saves energy. Heating and cooling can account for up to 40 percent of electrical costs in the home. Control your lighting and your HVAC systems with the same keypad.
- A Clipsal System helps you live smarter, saving you money while paying for itself and improving your level of comfort.

Saturn™ Keypad

Dynamic Labelling Technology™ (DLT) Keypad

Handheld Remote Control

Home Theater

With a **simple press of a button**, you can dim lights, close curtains and turn on your entertainment system for the **perfect viewing experience**.

Need to go to the kitchen to make popcorn? Light your way by hitting the pause button on your remote control. The DVD pauses, the lights turn back on, the hallway light comes on, and the kitchen lights come on... It's that easy.

Clipsal Thermostats

Getting a little cold while watching TV? Control your heating/cooling with your Clipsal lighting control keypads, touch screens or remote control. With one button press on your remote control, adjust the temperature without getting out of your chair.

Clipsal Thermostats

Clipsal® Multi-Room Audio

Delivering quality sound to multiple rooms is a great idea for any home. Just connect Clipsal components to your audio system, then control the music from each room of your home where you have speakers and a keypad. Perfect for listening to music in any room, or even outdoors on your patio.

Clipsal Matrix Switcher
