

REAL NAIL 3 Bar Hanger Features

The Best Just Got Better

Oversized locking screw or quick-lock screwdriver secures housing movement

Bugle headed nail design allows easy removal for housing relocation

T-Bar Mounting

- Integral notch and clip allow bar hanger to securely mount to t-grid member – NO ACCESSORY CLIPS REQUIRED
- 24" expansion stop for quick installation in standard grid spacing
- Can be secured with wire or reinforced with a screw as required

Joist Alignment

- Bar hanger foot contoured to consistently align with bottom of joist while minimizing interference with installation of drywall or adjacent tiles in T-bar ceiling

NEW

Integral T-bar clip for secure mounting in suspended ceilings

NEW

Contoured foot for easy alignment to bottom of joist

Patented Break-Away Bar Design

- Break-away feature allows bar to be adjusted from as short as 8" to as long as 25"
- Hangers break cleanly without metal deformation for quick and easy reassembly of bar hangers on plaster frame

Bar Hanger Locking System

- Oversized locking set screw secures housing location along bar hanger
- Additional quick-lock screwdriver slot

Alternate Mounting Holes

- 3 additional mounting holes provided
