FOR IMMEDIATE RELEASE

**JUNO LIGHTING GROUP® INTRODUCES VERSATILE SLOT TRIM FOR ACULUX™
RECESSED LIGHTING**

DES PLAINES, Ill. (April 23, 2007)—Juno Lighting Group, a leading North American lighting manufacturer, has introduced a new oval slot trim under the Aculux™ brand. The new 4345 oval slot trim combines Aculux quality features with an optimized slot size to deliver exceptional performance. This versatile trim offers the functionality of an adjustable accent or general downlight which makes this trim ideal for highlighting artwork and architecture as well as for general downlight applications.

The 4345 oval slot trim is provided with a black Alzak® angle-cut reflector and has an enhanced aperture size measuring 1-3/4 inches by 2-7/16 inches to provide maximum coverage without restricting the beam pattern of the MR16 lamp. The knife-edge trim ring design blends seamlessly into the architecture, eliminating hard shadow lines at the ceiling and minimizing edge glow at the aperture. When illuminated, there is minimal lamp image in the reflector from typical viewing angles. All of these trim features work together to provide highly efficient illumination with superior uniformity and low aperture brightness.

The oval slot trim is for use with the Aculux 3-1/4-inch low voltage adjustable housings which feature 361-degree rotation, 0-45° aiming with tool-less locking, and hot aiming capability. These features allow the user to aim the light in any desired direction while preventing aiming “dead spots.”

Aculux Presents New Trim
2-2-2

Aculux™

The Aculux brand features a comprehensive series of high-performance, architectural-grade recessed luminaires. Designed to blend quietly with the architecture, Aculux fixtures provide highly efficient illumination of artwork and furnishings, as well as dramatic space-enhancing effects. Aculux precision recessed lighting is perfect for residential applications where high performance and inconspicuous appearance are required. Aculux luminaires offers the smallest aperture available in the precision recessed market and the reflectors feature deep lamp shielding to eliminate glare.

Juno Lighting Group®

Founded in 1976, Juno Lighting, Inc. is a leader in offering high-quality and innovative commercial and residential lighting solutions. Under the Juno Lighting Group umbrella, the company comprises nine product brands: Juno®, Indy™, Alfa, AccuLite™, ModuLight®, Aculux™, NaviLite®, DanaLite and Elate™.
